REMARKS

ECMU 11886, 29 May 1962

1. After reviewing references we agree that Hans Dietrich ERNST [REDACTED] and Hans ERNST [REDACTED] are not identical and there are no indications of a relationship. We also are convinced that the Hans ERNST, DOB: 17 March 1926 in Breslau, on whom EOBA-72439, 3 May 1962, forwarded BDC traces, is still a third individual.

2. In view of the above, we suggest that it is preferable not to discuss Hans ERNST ([REDACTED]) with UPHILL as such discussions would automatically eliminate any possibility for his cultivation by Bonn Base. Since the only remaining security factors are Subject's approaches to KUBARK [REDACTED] and his imprisonment by the Soviets, we believe that Bonn Base, forewarned of these factors, can judge the advisability of continued contact with Subject without benefit of UPHILL comments at this time. This course will have the advantage of not having drawn KUBARK interest to UPHILL should Subject develop into a valuable contact.

3. We defer to COS, Germany to bring Bonn Base up to date on developments concerning Subject as Bonn has not received recent correspondence pertinent to Subject.
